Subject: My 401K and or IRA.

The government has clearly shown time and time again that they have no idea of how to take care of its

Citizens. And it clearly shows that the citizens have a better understanding of how to run THEIR

Lives than the government does. This is nothing but stealing in the care of the government.

This, if passed could very well be what is needed for the citizens to rise up against a corrupt

Government and completely remove it from power, by force if need be.
